FELT LLAMAS

Boutique Sha

Treat yourself to a fluffy trio of llamas. They're so easy to stitch you'll have a whole herd in next to no time.

01 Choose which llama you want to make first and cut out two body shapes, a face, a fringe, some ears and a pair of feet.

02 Following the instructions in the magazine, stitch the pieces together adding in the stuffing as you go. You can then add some accessories to pretty up your llama. See right for suggestions.

LLETITIA

Who needs the Easter bunny, when you have the Easter llama Lletitia? She adores this time of year, so make her up in candy yellow and give her as an extra surprise with your Easter eggs. She's as delicious as chocolate.

LLEILA

Pretty Lleila is the colour of candyfloss, but don't be fooled by her sweet princess looks – she just loves to show off. Transform her into a kooky badge: attach a brooch fastening, pin her to your canvas satchel and let her do her thing.

LLAVINIA

Lazy llama Llavinia likes nothing better than an afternoon nap. Her cosy snow-white coat is perfect for showing off pretty petals, so make her up, and place her on the pillow of someone lovely. Sweet dreams are promised.

ACCESSORIES

Add some cute extras to your llamas, such as pretty flowers (see templates above). You can embellish the centres with tiny beads, or a little swirl of ribbon. We've also added a bow to our llamas, choosing pretty colours that complement the felt. You can make your llamas unique in other ways too, such as using different coloured threads to stitch the pieces together.
